

Dear WorldTrans' Partner,

It is our sincere hope that 2009 finds you all well and in good health!

In a continuing effort to proactively work on behalf of our valued clients WorldTrans Services is pleased to announce the ["10+2" Compliance Work Shop](#).

The purpose of this workshop is to diligently prepare our esteemed clients for the newly mandated Importer Security Filing "**10+2**" (sea freight only)

WorldTrans' prides itself on staying ahead of the curve, while remaining focused on our objective to fulfill our mission statement: "**Work in partnership with our clients, while reducing bottom line cost.**" It is for this reason WorldTrans has educated itself on what exactly will be expected from YOU (the importer) for this new Security Filing.

The simple side of "10+2"

Customs Border Protection (CBP) has mandated January 26th 2009 to be the compliance phase of this program, in which, every U.S Importer will be required to provide and file some **additional information** from what they are **already** providing to the CBP.

U.S Importers on record will have until the end of the 2009 calendar year to become compliant in providing the additional information to the CBP. The additional information can be found on the attachment provided, as it will clearly list what the **existing requirements** are for Carriers and Importers, as well as, outline the **New Requirements**.

In addition to the fact sheet, WorldTrans has included for your review, a helpful **Security Filing (10+2) FAQs**.

WorldTrans intends to roll out this information in phases. Phase (1) is this email - to familiarize you with this mandate that was just finalized by the CBP.

The 2nd phase will be to host a "**10+2" Compliance Workshop** as discussed in the outset. It will allow you as the Importer to educate yourself, while providing opportunity to ask questions to WorldTrans as your freight forwarder and to the U.S Customs Broker that will be present.

Phase (3) will entail detailed options WorldTrans will open to you as the Importer, on the most cost effective and efficient manner to pursue compliance.

Rest assured that as our highly valued client - WorldTrans will do everything to make this a very seamless process.

Please take the necessary time to read the attachments and gather the questions that were not addressed in the information provided as the actual dates for the "**10+2" Work Shop** will soon follow.

Thank you for your time and remember "**Logistics Solutions. We Can Do It. We Have Done It!**"
